## Experience

### SCube

June 2023 – Present

*MERN Stack Developer*

*Lahore, Pakistan*

- Developed and maintained 10+ responsive web applications using MongoDB, Express.js, React.js, and Node.js
- Designed and implemented RESTful APIs with Express.js and Node.js, improving backend efficiency by 30%
- Created dynamic user interfaces with React.js, Redux, and Tailwind CSS, enhancing user engagement by 40%
- Optimized application performance through code splitting, lazy loading, and efficient database queries
- Implemented JWT authentication and authorization for secure user access control
- Conducted cross-browser testing and debugging to ensure consistent functionality across platforms
- Collaborated with team members using Git version control in Agile development environment

## Projects

### SCube | React JS, Tailwind

- Implement UI design using ReactJS and Tailwind CSS. Ensure responsive design for various devices and screen sizes.
- Develop reusable React components for consistent design and functionality.
- Collaborate with designers, backend developers, and other team members.
- Implement client-side routing for smooth navigation between pages

### ICTM-Meeting Module | ReactJs, Material Ui, Node Js

- Collaborate with designers and backend developers to implement user interfaces that meet design specifications and technical requirements
- Ensure cross-browser compatibility and responsiveness of web applications.
- Work closely with product managers to understand user requirements and translate them into technical solutions.

### Kasmo | Node Js, Express, ReactJs, Tailwind CSS

- Developed a web platform with a robust backend using Node.js and Express to handle authentication, data processing, and API integrations.
- Built dynamic and interactive front-end interfaces using ReactJs, ensuring seamless user experiences and component reusability.
- Implemented responsive UI and consistent styling with Tailwind CSS, achieving a modern and mobile-friendly design.

### Surveillance | React Js, Material UI

- Developed responsive, accessible user interfaces using React.js and Material UI, focusing on usability across devices.
- Built a role-based access system with distinct functionalities for Users, Managers, and Admins.
- Integrated front-end components with backend APIs for real-time data retrieval, manipulation, and secure storage.
- Ensured consistent cross-browser performance and responsiveness across various screen sizes.

### Training Management System | ReactJs, Material Ui

- Develop responsive and accessible user interfaces using ReactJs library.
- Integrate front-end components with backend.
- Ensure cross-browser compatibility and consistent rendering across different devices and screen sizes

## Technical Skills

HTML, JavaScript, React, Tailwind CSS, Bootstrap, Material Ui, Ant Design, Version Control (Git), SQL

## Certifications

**Mern Stack Developer** | Contour Software House

Issued Jan 2023

**Front-End Developer** | Programmers Force

Issued April 2023

## Education

**Khwaja Fareed University of Engineering and Information Technology (KFUEIT)**

June 2022

*Bachelor of Science, Computer Science*

*Rahim Yar Khan, Pakistan*
